## 1.4 CREATIVE

Every advertising unit consists of a title and a thumbnail image. An advertising unit (ad unit) is a coherent medium that sells or promotes a product, service or idea. Together bold visuals and strong titles drive better customer engagement & increase click through rates (CTR).

On the other hand, a misleading or unclear message of an ad unit may worsen user satisfaction & increase the bounce rate of a website. Therefore, every ad unit should target its audience and give users a clear understanding of what is on the landing page.

The thumbnail image is the key element to an ad unit as it draws the user's eye and keeps their attention. However, make sure that the advertised content is tailored to the product/service you promote.

#### **CBD**

It's forbidden to advertise cannabidiol containing products no matter its type or percentage. MGID doesn't accept content on the subject of marijuana, legal or otherwise, or any illegal drug use. The supplements that allegedly mimic illicit drugs or drug use, such as herbal ecstasy are also prohibited.

#### **COUNTERFEIT GOODS**

It is forbidden to advertise the sale of counterfeit products. Counterfeit goods contain a trademark or logo that is identical or, in its essence, indistinguishable from the trademark of another company, in an attempt to transfer the product as a product of the brand owner.

### PROHIBITED PRACTICES

#### BLIND NAVIGATION

Blind navigation provides a negative user experience. Your website should have proper and visible navigation. Please avoid placements that can encourage accidental clicks.

#### LANDING PAGE AND OFFER PAGE PRODUCTS MISMATCH

The name of the product promoted on the landing page should match the actual product on the offer page.

#### LANDING PAGE AND OFFER PAGE LANGUAGES MISMATCH

The language of the texts on the landing page must match the text language on the offer page. The only exception is English, as an international language.

#### LANDING PAGE/OFFER PAGE SUBSTITUTION

Any LP substitutions without prior notification is prohibited. Each link is carefully checked during moderation. We usually make scheduled manual landing page re-checks. When a substitution is detected, the moderator blocks the teasers and sends email notification to the account manager.

#### UNACCEPTABLE WEB-PAGE FORMAT

Landing pages must not have an unreasonable amount of popups or overlays. A user should be able to easily close any popup advertisements or overlays that appear in connection with the landing page. Content must not be overloaded with ads or disrupted by ads.

## SECURITY VIOLATIONS

## NON-FUNCTIONAL WEBSITES

Ads must not direct people to non-functional web-pages:

- Error pages
- Sites that are under construction
- Landing pages that are PDF or JPEG
- Landing pages that don't match the product, service or content promoted in the ad

## LANDING SITES INFECTED WITH MALWARE

You must not use websites or content that contains or causes the download of any spyware, malware, or software, resulting in an unexpected experience, such as the automatic download of applications without users' consent. This also includes websites that contain any code or script that interferes with a user's control of the site, such as a script that takes over a web page or user's browser.

## CLOAKING

Cloaking refers to the practice of presenting different content or URLs to users than to MGID moderation. It is used to hide the true destination that users are directed to. When it is detected by the system, the moderator blocks ads and notifies the account manager by email.

## PHISHING

You must not use websites that are designed to collect a user's personal information or harvest personal information with the intention of distributing that information without a user's consent. Personal information includes: credit card numbers, email addresses, dates of birth, telephone numbers, sexual orientation and gender.

## BROWSER LOCKING

Refers to the practice when the system identifies a popup is preventing the user from exiting the browser.

You must not interfere in any manner with a user's ability to return to the original referring website by clicking back on their browser.

## DRIVE BY DOWNLOAD

Refers to a practice when a file download starts automatically when the ad is displayed without any user action. Websites or content must not contain or cause the download of any spyware, malware or software, resulting in an unexpected experience, such as the automatic download of applications without users' consent.

### 2.4 CREATIVE

Every advertising unit consists of a title and a thumbnail image. An advertising unit (ad unit) is a coherent medium that sells or promotes a product, service or idea. Together bold visuals and strong titles drive better customer engagement & increase click through rates (CTR).

On the other hand, a misleading or unclear message of an ad unit may worsen user satisfaction & increase the bounce rate of a website. Therefore, every ad unit should target its audience and give users a clear understanding of what is on the landing page.

The thumbnail image is the key element to an ad unit as it draws the user's eye and keeps their attention. However, make sure that the advertised content is tailored to the product/service you promote.

#### HEADLINE

The advertisement is a rectangular unit. At the top is a large image of a woman's face looking up, framed by a rain-soaked car window. Below the image is a headline, followed by a line of advertising text, and then a blue button with white text. A red line with arrows points from the labels on the left and right to the corresponding elements in the ad.

Any images of the Thai King or the Royal Family are prohibited in any kind of advertisement. Speaking against the Royal Family publicly is against the law. In Thailand, lèse majesté (insulting the monarch) is criminalized by Section 112 of the Thai Criminal Code. It is illegal to defame, insult or threaten the king, queen, heir-apparent, heir-presumptive, or regent. The punishment, last strengthened in 1976 and the only constitutional monarchy to do so since World War II, is three to fifteen years of imprisonment per count and has been described as the "world's harshest lèse majesté law" and "possibly the strictest criminal-defamation law anywhere."

### BEST PRACTICES

- Make sure the image is relevant to the title
- Clean, uncluttered imagery. Avoid images with multiple subjects or busy backgrounds to ensure a good crop
- Brighter images usually get more attention
